## Try Ninety Feet "On Us"

before you decide. That's our offer. Without risk try the paint we give you free when you order enough for your house. Examine this paint while it is in the can. See how uniform it is: no grain, no lumps for you to pay for.

See how this paint hides the under-surface with one stroke of the brush—what body it has—how much more reduction it will take—how easy it works—how far it goes—how smooth it dries.

Make any test you know—side by side with any other paint, then decide to keep the rest or telephone us to take the paint away and return your money. The ninety feet you have tried will not cost you one penny. But we tell you right now you will use it all.

*Heath & Milligan*  
PREPARED PAINT

withstands dry heat, wet heat, freezing, warping, and moisture—the real reasons for paint; resisting snow, sleet, rain. It seals the surface, wears longer and leaves the surface in the best condition for repainting.

The free trial will show you exactly what we mean whether you know anything about paint or not. Come in and get color suggestions; let us talk it over.
